

Calling all patients, carers and members of the public who are involved in research

We are running a series of seminars for you to learn some more about the basics of research. These are not intended to make researchers of you, simply to help you feel fully able to contribute and better placed to ask questions.

Lunch or tea will be provided at the start of each seminar and you can claim travel expenses.

To book onto one or more of the seminars simply email Lynne at ppi@phc.ox.ac.uk You will then be given details of the location, which is in central Oxford.

2016	Time	Topic	Trainer
Thurs 21 st January	12.30 – 14.00	What is evidence? What is a randomised controlled trial? What is meant by the research cycle?	Dr David Nunan
