Funding or support statement included in Acknowledgements section?

Including this is hugely important. If not included the research may not be counted as part of the CLAHRCs outputs, used by the NIHR and Department of Health to measure our progress and make future funding decisions.

The NIHR requires *all* publications by CLAHRC supported researchers, not just those projects which are 'CLAHRC projects', to include the funding/support acknowledgement.

NIHR disclaimer included?

After your acknowledgement, a disclaimer must also be added:

'The views expressed are those of the authors and not necessarily those of the NHS, the NIHR or the Department of Health'.

Oxford Health NHS FT included in Affiliations section?

'Oxford Health NHS Foundation Trust' hosts CLAHRC Oxford and should be included in the affiliations.

Provided a copy of the publication to the CLAHRC core team on acceptance?

On acceptance by a journal a copy of the accepted manuscript should be emailed to:

nihrclahrc@phc.ox.ac.uk.

The CLAHRC is contractually obliged to give the NIHR *at least 28 days' notice* of publications.

Planning media or promotion?

If there is a newsworthy angle to the paper or you would like to promote your paper (including on department, CLAHRC or NIHR websites and institutional social media channels), please email the Communications Officer via nihrclahrc@phc.ox.ac.uk

We will then work with you to draft a press release and devise a media strategy. Please do also let us know if anyone else (e.g. another funding body) will be putting out a press release as far in advance as possible.

The NIHR requires sight of any press releases 14 days before they go out.

The following is an example funding statement to use for funded research:

"This research was funded by the National Institute for Health Research (NIHR) Collaboration for Leadership in Applied Health Research and Care Oxford at Oxford Health NHS Foundation Trust."

The following is an example funding statement to use for *funded or supported researchers*:

"[name] is funded by/supported by/receives funding from the National Institute for Health Research (NIHR) Collaboration for Leadership in Applied Health Research and Care Oxford at Oxford Health NHS Foundation Trust."*

*delete as applicable

Researchers employed through the University of Oxford are required to deposit accepted manuscripts (final peer-reviewed version) into the ORA repository within three months of acceptance.

For details of how to do this, visit: openaccess.ox.ac.uk/home-2/act-on-acceptance
